Stock switches are sold on a first come first serve basis. A PO is required to hold a switch and must be released to ship within 14 days of receipt of PO. Stock Orders will ship 1-2 business days from receipt of PO. Vanjen’s shipping and receiving hours are Tuesday – Thursday from 9 am-3pm. Please verify pickup location and shipment availability with your Vanjen Project Manager, any shipments scheduled without prior approval may be rejected.

Please let me know if you need anything else at this time. Thank you for the opportunity.

Zenith ZTG series Automatic Transfer Switches

ZTG(D) series ATS, 30-1200 A, 200-480 Vac

- Easy to Install and Commission
- Continuous Operation
- Data and Connectivity

Powered by TruONE™ technology, Zenith ZTG series automatic transfer switches incorporate switch and controller in one seamless, self-contained unit, reducing the number of wires and connections. This design saves room in the enclosure and minimizes the potential for connection failures. In addition, the design incorporates modular components to reduce downtime and service costs, and an optimum interface for advanced control, connectivity, and energy efficiency.

Zenith ZTG series

Continuous power. Non stop innovation.

Easy to Install and Commission

Start up in minutes, not hours.

The new Zenith ZTG series weighs up to 30% less than comparable ATS models but has up to 25% more wire-bending space, making it especially easy for contractors to install.

Once sources are connected, an innovative auto-configure function via the HMI sets electrical system parameters in seconds. Because of TruONE™ technology, no additional control wiring or troubleshooting is required on-site. And any programming changes can be done from the HMI with a few keystrokes, making commissioning quick and painless. You can even configure Zenith ZTG on site before installation – using a laptop with Ekip Connect 3 Software, even without any external power supply.

Continuous Operation

Minimize unplanned outages.

Zenith ATS solutions are tested to last up to 6,000 cycles. Based on 10 transfers per month, that's 50 years of reliable operation! If things ever do go wrong, all critical modules are customer-replaceable to simplify service and significantly reduce downtime and service costs. Say goodbye to blinking lights and stopping motors.

Advanced Data and Connectivity

Make data-driven decisions.

The Zenith ZTG now features cloud-based connectivity through the ABB Ability™ Energy and Asset Manager. ABB Ability simplifies implementation and use of Zenith transfer switches in coordination with other ABB devices, ensuring one common user interface and one common software environment. Market-leading modular communication with seven protocols ensures easy installation and connectivity now and far into the future.

Zenith ZTG series

Continuous power. Non stop innovation.

Optimum Interface

Frustration-free programming.

The LCD HMI on Zenith is easily navigated, password protected, and allows access to features ranging from programmable set-points, time delays, digital I/O and exercisers to switch status, events, and diagnostics.

In addition, Ekip Connect computer software is an alternative to the HMI that makes programming a cinch whether you're in the office, or on-site. With this tool, you can import, export, or modify ATS settings via the USB port located on the HMI with no need to apply power to the unit.

| ZENITH ZTG

More advantages. Greater power security.

Speed Up Your Project

Now you can speed up your project even more, thanks to automatic commissioning capabilities. Premade configuration files can be uploaded from your PC to the controller via USB or Bluetooth, minimizing the risk of human error and reducing programming time by 80%.

Optimized Logistics

Leveraging ABB TruONE all-in-one engineering, Zenith features a wide voltage range from 200 to 480 VAC (with +/-20% tolerance), reducing the need to stock multiple SKUs, so you can reduce inventory and save space in the warehouse.

Integrated and Future-Ready

Not ready to make the jump to digital yet? No problem. ABB Zenith features plug-in factory and field-mount accessorizing. You'll never need extra space inside the panel for any future upgrades.

Energy Efficiency

Select Zenith models feature full compatibility with ABB Ability™ Energy and Asset Manager, allowing data processing from the site's electrical equipment to deliver analysis and make recommendations for optimizing the electrical system's performance. This enables remote monitoring of plants, energy consumption and costs at a glance, making implementation of energy management strategies easier and faster.

Safety and Protection

Unlike typical ATS solutions, Zenith enables safe emergency manual operation—even under load—without opening the panel door when the HMI is mounted to the ATS frame. With controller and power supply embedded in the power panel, there are no dangerous line voltages to the door, so the risk of operator injury due to equipment malfunction is reduced.

Affordable Range

With the right solution to match the application, ABB Zenith provides top value for your specific needs—from optional stand-by power to even the most critical uninterruptable processes—with the most comprehensive ATS portfolio on the market

Compliant with the standards you trust

- cULus (UL 1008) listed
- NFPA 70, 99, 101, and 110
- IEEE 446 and 241
- NEMA ICS 10
- Seismic (certification in process)
 - IBC-2015
 - IEEE-693-2005
- UL 508
- UL 50, NEMA 250, and NEMA ICS 6

Taking ATS performance to new heights.

Bring the highest level of convenience, efficiency and critical power security to your product, project or facility.

ZTG is the superior solution for:

- Generator dealers
- Electrical contractors
- Distributors
- Consultants and engineers
- Facilities managers

ZTG provides superior critical power security for:

- Commercial buildings
- Industrial buildings
- Sports arenas
- Airports
- High-rise buildings
- Education and government
- Financial environments
- And more

—
Sports arenas

—
Industrial buildings

Construction

1. Automatic transfer switch
2. Embedded ATS control unit and mechanism
3. HMI unit, type ZTG LCD
4. Slide switch (Hand - Locking - AUTO) for selection of the operation mode
5. Padlocking the automatic transfer switch to prevent automatic and manual operation
6. Handle for manual operation
7. Position indication
8. Terminals for control circuit connections (behind the cover)
9. Place for connectivity modules (aux power supply, com and signaling)
10. Place for auxiliary contact block
11. Location of product identification label
12. Programming port, only for Ekip Programming module and Ekip Connect software

Features

| Elevator Post-signal delay S1 to S2, sec | 0-60 |
| Elevator Pre-signal delay S2 to S1, sec | 0-60 |
| Elevator Post-signal delay S2 to S1, sec | 0-60 |
| Load shed delay, sec | 0-300 |
| Source failure detections | |
| No voltage | Yes |
| Undervoltage | Yes |
| Overvoltage | Yes |
| Phase missing | Yes |
| Voltage unbalance | Yes |
| Invalid frequency | Yes |
| Incorrect phase sequence | Yes |

* Drop out voltage settings possible as low as 70% for 240V-480V systems.

Features

Main features in the table below.

Consult ABB for more information.

| | ZTG controls |
|---|-------------------------|
| Controls | LCD + keys |
| LED indications for ATS, S1 and S2 status | Yes |
| Open transition - Standard digital inputs/outputs | 1 / 1 |
| Delayed transition - Standard digital inputs/outputs | 2 / 1 |
| Programmable digital inputs/outputs | Yes |
| Auto config (voltage, frequency, phase system) | Yes |
| Source priority | Source 1/2, No priority |
| Manual re-transfer | Yes |
| In-phase monitor (synchro check) | Yes |
| Genset exercising: on-load, off-load | Yes |
| In-built power meter module | No |
| Load shedding | Yes |
| Real time clock | Yes |
| Event log | Yes |
| Predictive maintenance | No |
| Voltage and current harmonics measuring | No |
| Field-mount accessories | |
| Auxiliary contacts for position indication | Yes |
| Digital input/output modules | Yes |
| 12-24 Vdc aux supply module for controller | Yes |
| Communication modules | Yes |
| Connectivity capability | |
| Modbus RTU (RS-485) | Yes |
| Modbus/TCP | Yes |
| Profibus DP | Yes |
| ProfiNet | Yes |
| DeviceNet | Yes |
| Ethernet IP | Yes |
| Monitoring via ABB Ability™: Energy and Asset Manager | Yes |
| For applications | |
| Mains - Mains | Yes |
| Mains - Generator (minimum size 20kVA) | Yes |
| UL short circuit withstand ratings | |
| Coordinated breaker WCR | Yes |

Description of basic functionality

Operation of time delays and corresponding relay output signals

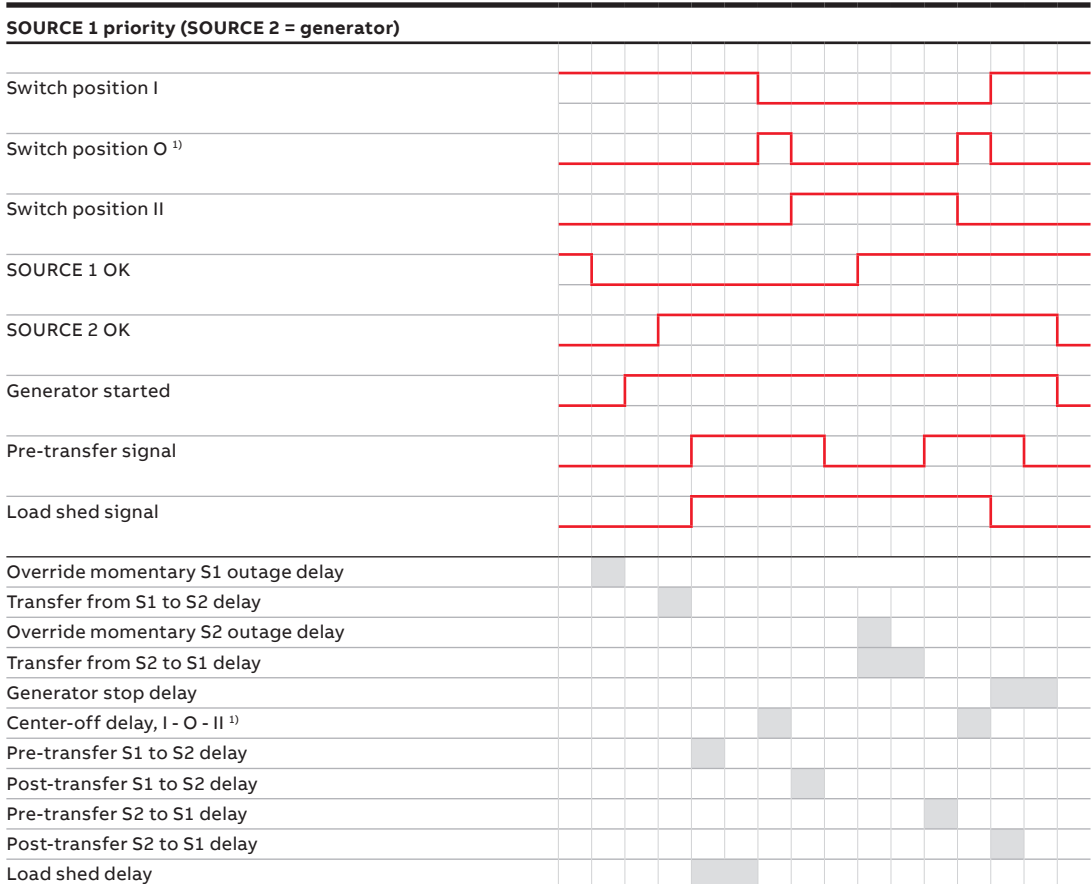

Example for SOURCE 1 Priority, SOURCE 2 = Generator

The automatic switching sequence can be summarized in the following steps:

- An anomaly occurs on the SOURCE 1
- Override momentary S1 outage delay
- Generator start
- SOURCE 2 OK
- Transfer from S1 to S2 delay
- Pre-transfer signal on
- Load shed signal on
- Pre-transfer S1 to S2 delay
- Load shed delay
- Transfer switch (SOURCE 1) to the position O
- Center-off delay (only with Delayed transition I - O - II type)
- Transfer switch (SOURCE 2) to the position II
- Post-transfer S1 to S2 delay
- Pre-transfer signal off

The re-transfer sequence can be summarized in the following steps:

- The SOURCE 1 is restored
- Transfer from S2 to S1 delay
- Pre-transfer signal on
- Pre-transfer S2 to S1 delay
- Transfer switch (SOURCE 2) to the position O
- Center-off delay (only with Delayed transition I - O - II type)
- Transfer switch (SOURCE 1) to the position I
- Load shed signal off
- Generator stop delay
- Post-transfer S2 to S1 delay
- Pre-transfer signal off
- Generator stop
- SOURCE 2 off

¹⁾ Off position included in sequence for delayed transition only

Accessories

Automatic transfer switches

OXEA1

Auxiliary power supply module

The OXEA1 auxiliary power supply module is used for: a) connecting connectivity modules (signaling and communication) to the switch b) powering the ATS controller and connectivity modules from auxiliary 12-24 Vdc power supply, to keep them operational during power failures. A 12-24Vdc power supply is not required when line power is available but it is necessary to keep the modules operational during power failures. Auxiliary power supply module is included automatically when Ekip Com modules are selected in a Zenith order code.

Connectivity modules

The connectivity modules are used in combination with OXEA1 auxiliary power supply module to enable communication capabilities (Ekip Com modules) and increase the number of digital inputs and outputs (Ekip Signaling modules). The maximum number of additional modules depends on the Zenith ZTG switch size: 30-260 Amp sizes can fit three additional modules and 400-1200 Amp sizes can fit four additional modules. These modules are available on Zenith ZTG up to 1200A.

EKIP.COM

Communication modules

The Ekip Com modules enable Zenith ZTG to be integrated in an industrial communication network for remote supervision and control of the switch. Several Ekip Com modules can be installed at the same time, thereby enabling connection to communication systems that use different protocols. The Ekip Com modules for Modbus RTU, Profibus-DP and DeviceNet contain a terminating resistor and dip switch for optional activation to terminate the serial network or bus. The Profibus-DP module also contains a polarization resistor and dip switch for its activation.

Available com modules:

- Modbus RTU
- Modbus TCP
- Profibus DP
- Profinet
- EtherNet / IP
- DeviceNet

Accessories

Automatic transfer switches

EKIP COM HUB

Ekip Com Hub

Zenith ZTG is ABB Ability™ Energy and Asset Manager compatible using Ekip Com Hub module ZEAEKIPHUB with an internet connection. For further information related to ABB Energy and Asset Manager, please visit the dedicated website <https://new.abb.com/about/our-businesses/electrification/abb-ability/energy-management>

OA1G10

Auxiliary contacts

Auxiliary contacts are configurable with Zenith ZTX and ZTG series automatic transfer switches. The aux contacts mount on the right side of the switch, with up to contacts available for both Source 1 and Source 2 position indication contacts total. See ordering information and technical information sections of this catalog for more information.

Function table for auxiliary contacts / Source 1 position (max. 2+2)

Zenith ZTG extended range includes the following which are based upon the Zenith contactor-based ATS and MX150 controller. Please reference Zenith documents PB-1201 and PB-1301 for technical and ordering information.

- 1600-3000A ratings for full voltage range (120-600Vac)
- 40-1200A ratings for 120Vac and 600Vac
- Service entrance rated from 40-3000A, all voltages (ZTGSE and ZTGDSE)

¹ Special Enclosures Type 3R, 12, 4, and 4X weights are up to 22% greater than Type 1 Enclosures/
² Special Enclosures Type 3R, 12, 4, and 4X dimensions differ. Consult Tech Support for details.
³ All dimensions and weights are approximate and subject to change without notice.
⁴ Packing materials must be added to weights shown. Allow 15% additional weight for cartons, skids, crates, etc.

- NOTES**
- ENCLOSURE : NEMA-3R TYPE, FREE STANDING, FLOOR MOUNT.
 - MATERIAL:12 GA (.105) 1018 HRS REF.
 - FINISH : ANSI 61 GREY
 - CONSTRUCTION PER UL 1008 STANDARD.
 - FRONT ACCESSIBLE UNIT. NO SIDE OR REAR ACCESS REQUIRED.
 - SUITABLE WIRE BENDING SPACE PROVIDED PER THE SAFETY AGENCY STANDARDS.
 - UL AND CSA RECOGNIZED/CERTIFIED MECHANICAL LUGS ARE STANDARD.
 - EQUIPMENT GROUND LUG IS PROVIDED IN ALL UNITS. REFER SHEET 2 FOR DETAILS.
 - ALL DIMENSIONS ARE FOR REFERENCE ONLY AND SHOWN IN INCHES(MILLIMETERS).
 - 100% RATED SOLID/SWITCHED NEUTRAL PROVIDED PER THE SWITCH CONFIGURATION.
 - SUITABLE FOR TOP AND/OR BOTTOM CABLE ENTRY.

- SEISMIC NOTES:**
- BOLT ENCLOSURE FROM C-CHANNEL BASE USING THE FOLLOWING SEISMIC CERTIFIED MOUNTING HARDWARE PER MOUNTING HOLE: (HARDWARE PROVIDED BY INSTALLER).
 *1/2-13 GRADE 5 BOLT TORQUE TO 70 FT-LBS. (95 NEWTON METERS).
 *1/2-13 STANDARD FLAT WASHER.
 *1/2 (13) HELICAL SPRING LOCK WASHER.
 - CENTER OF GRAVITY DIMENSIONS ARE FOR REFERENCE ONLY.
 - FOR WORKING CLEARANCE REFER TO NATIONAL AND LOCAL CODES AND STANDARDS.

1 General Terms

This Rider incorporates by reference ABBGTC052020 Terms and includes the following additional provisions contained herein. In the event of a conflict between this Rider and ABBGTC052020, the Rider shall take precedence. Refer to the Operations Manual of each Product for specific handling and storage requirements that may impact the warranty. This warranty is valid only in the United States.

2 Surge Protective Devices (SPD)

2.1 ABB Wall mount SPD, Box Extension, and Integral/Factory installed Product

The Warranty periods for the ABB OVRH Series SPD Products are as follows: The OVRHTP Series is ten (10) years. The OVRHTE, OVRHMSU is five (5) years. The OVRHT3B, OVRHT3C, OVRHS3U, and OVRHLD is three (3) years. All warranty periods for these Products begin from the date of shipment from Seller's facility.

The Warranty period for the ABB TLE, TME, TPME, TPHE Series Wall Mount SPD Products, the ABB TPME and TPHE Series Integral Mount SPD Products, and the ABB TPME and TPHE Series Box Extension SPD Products is ten (10) years from the date of shipment from Seller's facility.

2.2 Current Technology SPD Products

The Warranty periods for Current Technology Series SPD Products are as follows: Series SL3 is twenty (20) years. Series TG3, PX3, CGP3, ISM and HPI are fifteen (15) years. Series CG3 is ten (10) years. All warranty periods for these Products begin from the date of shipment from Seller's facility.

3 Automatic Transfer Switches (ATS), Zenith, legacy or T-series

3.1 Z(B)TE, Z(B)TS, ZTG, and TruONE open style (level 3 or 4 controls)

The Warranty period for ZTE, ZBTE, ZTS, ZBTS, ZTG, and TruONE open style (level 3 or 4 controls) transfer switch Products is twenty-four (24) months from the date of shipment.

3.2 ZTX and TruONE Open Style (level 2 controls)

The Warranty period for ZTX and TruONE open style (level 2 controls) transfer switch Products is twelve (12) months from the date of shipment.

3.3 ATS Replacement Parts

Replacement parts are warranted for a period of ninety (90) days when installed by an authorized Seller factory or authorized Seller service station.

4 Uninterruptible Power Supply (UPS)

4.1 SG, DPA, TLE High Power, MegaFlex, PowerBuilt, UPS-I and HiPerGuard

The Warranty period for SG UL, DPA UL, TLE 160kW to 1MW UL, MegaFlex UL, PowerBuilt UL, UPS-I, and HiPerGuard UPS Products are eighteen (18) months from date of shipment from Seller's facility.

4.2 TLE Scalable, LP33, LP11, GT, VH Power Value Series

The Warranty period for TLE Scalable 40 – 150kW UL, LP33 UL, LP11 UL, GT UL, VH UL and Power Value UL UPS Products is twenty-four (24) months from the date of shipment from Seller's facility.

4.3 UPS BATTERIES & ACCESSORIES

The warranty for batteries and accessories will be passed through from the original manufacturer per the terms of the manufacturer's standard warranty conditions.

5 Static Transfer Switch (STS)

5.1 Cyberex SuperSwitch 4

The Warranty period for Cyberex SuperSwitch 4 is eighteen (18) months from date of shipment from Seller's facility.

6 Power Distribution Units (PDU)

6.1 Cyberex PDU and RPP

The Warranty period for Cyberex Power Distribution Units is eighteen (18) months from date of shipment from Seller's facility.

7 Power Conditioning Systems (PCS)

7.1 Active Voltage Conditioner (AVC)

The Warranty period for Active Voltage Conditioner Units is eighteen (18) months from date of shipment from Seller's facility.

7.2 Static Frequency Converter (SFC)

The Warranty period for Static Frequency Converter Units is eighteen (18) months from date of shipment from Seller's facility.

8 Prohibited uses

In addition to prohibitions on nuclear use, the Equipment, Products and Services sold by Seller are not intended for use in connection with any avionics or life support activity or equipment, and Buyer warrants that it shall not use or permit others to use Equipment, Products or Services for such purposes without the advance written consent of Seller. If, in breach of this, any such use occurs, Seller (and its parent, affiliates, suppliers and subcontractors) disclaims all liability for any claims, damages, or injuries (including death). In addition to any other rights of Seller, Buyer shall indemnify and hold Seller (and its parent, affiliates, suppliers and subcontractors) harmless against all such liability. Consent of Seller to any such use, if any, will be conditioned upon additional terms and conditions that Seller determines to be acceptable for protection against avionics or life support liability.
